Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Charles Crawford respectfully petitions the FCC to institute a Rule Making proceeding to amend the FM Table of Allotments to add Channel 269A at Hawley, Texas.

DISCUSSION

Petitioner respectfully submits that the public interest would be served by allocating Channel 269A to Hawley, Texas as that community's first local FM service. Hawley, Texas is an incorporated city with a population of 646 people and 58 businesses that have been given a credit rating by Dun & Bradstreet as of the last quarter of 2000.¹ Hawley has its own mayor, Don Tatum, its own independent

¹ Texas Almanac 2002/ 2003.

school district, the Hawley ISD, its own post office, volunteer fire department, city offices and a number of local churches. Hawley is a community that is certainly deserving of local FM service. The proposed channel 269A will provide additional diversity and an outlet for local self-expression to Hawley residents and therefore is in the public interest.

In order for Channel 269A to be allotted at Hawley, the vacant allotment for channel 270C1 at Munday, Texas will need to move its reference coordinates approximately 14.99 kilometers north.

The proposed changes are as follows:

	<u>Present</u>	<u>Proposed</u>
Hawley, TX	-----	269A
Munday, TX	270C1	270C1 ²

Attached hereto is a channel study confirming that Channel 269A can be allocated to Hawley, Texas, consistent with the FCC's FM separation rules provided the necessary changes are made at Munday, Texas. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment A)

Reference coordinates for Channel 269A at Hawley, Texas are:

² The vacant allotment for Channel 270C1/ Munday, Texas will relocate its reference coordinates to: 33 44 53/ 99 42 14.

32 32 30 N
99 45 00 W

In order for Channel 269A to be allotted to Hawley, Texas, the reference coordinates for the vacant allotment for Channel 270C1 at Munday, Texas must be move approximately 14.99 kilometers north. Attached hereto is a channel study confirming that the reference coordinates for Channel 270C1 at Munday, Texas can be relocated consistent with the FCC's FM separation rules. (See, Attachment B) The new reference coordinates for Channel 270C1 at Munday, Texas are:

33 44 53 N
99 42 14 W

Should this petition be granted and Channel 269A be allotted to Hawley, Texas, Petitioner will apply for Channel 269A at Hawley, Texas and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
